

Monster Floor SC1z1

The Monster Floor steamer with its modern Italian design is ideal for washing most sealed hard surface floors without using chemical based detergents. Attach the bonus carpet sledge to refresh carpets and rugs.

Monster Floor's superheated steam softens and loosens dirt on floors easily, while the superabsorbent microfibre floor pad lifts and holds the dirt, for outstanding cleaning results without the excessive moisture of other steam brands.

Features:

Scrubbing Pad

Super absorbent microfibre pad with scrubbing insert to gently scrubs floors for a better cleaning result.

Automatic On/Off

Steam is released without pushing or holding buttons.

Carpet Sledge

Helps refresh and revitalise carpets or rugs.

Parking Pad

To park Monster Floor during idle times.

Ready in
3-minutes

Accessories Included

Carpet Sledge

2 x Washable
Microfibre Pads

Parking Pad

Funnel

Filling Cup

Technical Data

SC1z1

Water Capacity	600ml
Boiler Pressure	3.5 bars
Power	1200 W
Electrical Cable	7 meters
Usage below refilling	20 min approx.

Warranty

Monster Floor comes with a 2 year manufacturer's warranty.

Floor

ULTRA DRY
STEAM

NEW Ultra
Dry Steam
Technology

Suitable for all sealed hard surface floors including water sensitive timber and floor boards. Not suitable for unsealed floors and floors with temporary oils, waxes, polishes or sealants.

Monster is technologically enhanced for superior performance

Boiler Technology:

Monster Floor is the world's first upright floor steamer with a pressurised boiler that produces superheated steam to clean floors quickly without leaving chemical residues. Superheated steam from a boiler is much drier than steam produced by other methods, allowing floors to dry quickly without water marks or streaking. Monster Floor is built with a high-grade stainless steel boiler capable of withstanding high temperatures and pressure.

Other Boiler Advantages:

Longer Life

The boiler construction eliminates rust, corrosion and calcium build up for a longer product life.

Ready -Made Steam

Pre-made steam is stored and kept super hot ready for use.

Energy Efficient

Monster Floor is thermostatically controlled to save on power costs

Double Steam Jet Technology

The Bottom Jets continually emit steam to clean floor surfaces, while the Front Jets are used "on demand" to clean floor edges or used when extra steam power is needed for stubborn dirt.

NEW Ultra Dry Steam Technology

Monster's Hot Plate dries out accumulating moisture on the floor pad for a better streak free finish. The Hot Plate also gives extra heat to the floor pad to soften and remove dirt and grime faster than ever before. Heat is a powerful softening agent for dirt and grease.

Steam Booster Technology

Monster's Steam Booster function ensures that steam is consistently released onto the floor pad with no loss of pressure, avoiding unexpected variability in steam output.
